To THE great relief of the Democratic party Mr. Tilden has signified his intention of formally withdrawing from the Presi dential contest. We publish this morning among our Waskington dispatches a statement to this effect on what is deemed to be good authority, with the additional information that the withdrawal will take place at the Syracuse convention, which meets on Tuesday next. Mr. Tilden's health compels this course. This amouncement confirms the statements made in the interview we published in the APPEAL of yesterday from the Boston Herald. The party will thus be relieved of a great weight and of an anxiety that was sapping its energies. The divisions in New York that last year cost us that State may now be healed, and WORCESTER, April 14.—The Republican State convention, for a choice of four delegates to Chicago, meets to morrow. It is gates to Chicago, meets to morrow. It is evident that the friends of Edmunds will have a majority in the convention, and the delegates chosen will undoubtedly be in him favor, although the Grant and Paiss men have united. The text favorable to Edmunds men have united. The text fav tempt the defeat of the whole party. True, he accomplished its defeat in New York State last year rather than make concessions to the majority in New York city. But he will not attempt this in all the States. His power is undeniable, and his will for m'schief, as recently expressed by the committee of his wing of the party, seems to be as strong as ever. He was positive a few days ago that he would not make any terms with Utica to Syracuse for fear that Horatio Seyhope that he has repented of all this; that he realizing the utter impossibility of his nomination, has become resigned to his fate and is about to yield gracefully to it; that he will break away from the greedy, selfish spirit that has hitherto controlled him, and will patriotically exact his influence and his powers for the "uccess of the party in November.

AN IMPORTANT railroad meeting is shortly to be held in New York city for the purpose of effecting the consolidation of the Memphis and Charleston, the East Tennessee and Virginia and Georgia and the Atlantic, Ohio and Mississippi railroads so as to make one continuous line from Memphis to Norfelk.

This, it will be remembered, was attempted by Tom Scott in 1869, but was defeated by General Mahoac, then president of the Atlantic, Ohio and Mississippi. It is earnestly to be hoped that nothing will be allowed now to stand in the way of the consummation of this acheme, the accomplishment of which would give the south a great competing east and west line, and attract afresh the attention of the world to Memphis as beyond any question the most favorably situated city on the continent for trade and tinuous line from Memphis to Norfelk. ituated city on the continent for trade and raffic. The construction of the contemplated railroad to connect the Fort Smith road with the Kansas system, including that to the Pacific, would strengthenlihis trunk line, the quafulness and power of which might be greatly increased by taking in the line from Lynchburg to Washington, where connections might be had by which freights from Memphia, would go through to New York city without breaking bulk. LOUISVILLE, April 14.—Private dispatches from Savaonah received here state that the Georgia Central railroad and the Georgia railroad companics have leased to the Louisville and Nashville railroad that portion of the Western railroad of Alabama extending from Montgomery to Selma, giving the Louisville and Nashville railroad the option to purchase the same. The lease was ratified by the Louisville and Nashville railroad at its special called meeting in this city last Saturday, but the matter has been kept secret. The Georgia railroad board of di-rectors ratified and confirmed the lease last Thesday, and it was ratified by the Georgia Central yesterday. So the matter is now complete. The advantage thus secured by the Louisville and Nashville railroad is spoken of in railroad circles as most impor-tant, and, in its direct results, will undoubtedly prove of more denefit to the Louisville and Nashvi'le railroad than any transaction it has recently made.
